

Agile Leadership

Agile Leadership

As a Manager, how can you drive the transformation of your organization or team into an Agile mindset?

Get starter Agile Leadership tools to implement Agile in your work, in your teams and your organization!

Agile transformation needs support from the company's leadership at different levels from Executive to Functional Managers and collaborators.

Agile offers many possibilities to improve the organization and its projects, as this is a way to inspire teams, support project implementation, and create an environment of trust, feedback and customer focus.

Attend this intensive 1-day leadership agility training programme focused on practical learning, designed and facilitated by business people that understand your challenges and will guide you to find effective solutions.

Your immediate takeaway:

- Understand the impact of Agile in your organization
- Learn how Agile offers new possibilities in delivering projects successfully
- Understand the potential of Agile practices for your projects and organizations
- Get hands-on exercises that will help you in implementing Agility in your organization

This leadership agility training course combines proven-by-practice methods with new insights and ideas that will grow your agile skills. You will gain a wider perspective of leadership through breakout sessions, exercises, and case applications.

Who should attend?

If you are in a Management position and you are willing to support and lead the Agile transformation in your organization or teams, this programme is right for you.

“It is a perfect possibility to connect with people from different industries, who are dealing with the same issues.”

Agata Kulik, Product Manager Special Salts, Jungbunzlauer Ladenburg GmbH, Germany

How you will benefit

How will you benefit?

After participating in this programme, you will grow your Agile Leadership competencies and be able to:

- Understand the opportunities of transforming to an Agile organization
