Leading Disruptive Change and Innovation
Your Plan for Breakthrough Growth
Leading Disruptive Change and Innovation

Develop and promote a disruptive mindset to achieve new and sustainable growth.

Breakthrough growth isn’t about luck. It requires that everyone in the organization change their mindset from what it is to ‘what if’ and create a disruption.

Disruption equips us with the ability to withstand external threats, like competition, technology, government regulations, demographic shifts, economic uncertainty, and other influences.

As a leader of disruptive innovation, you will help your business capitalize on new opportunities and safeguard it against stagnation and obsolescence.

In this program for experienced leaders, you’ll identify and develop pivotal skills for being a visionary leader who is able to get ahead of the curve, prime others in your organization to welcome disruption, and do away with the common organizational resistance that often prevents companies from embracing the unexpected.

Who should attend?

Senior managers in all industries who are responsible for choosing and implementing an organizational and divisional strategy that will produce optimal results.

“The world as we have created it is a process of our thinking. It cannot be changed without changing our thinking.”

Albert Einstein
